

Dear Sabra Families,

As we prepare for your child's fabulous 2010 Sabra experience, at the top of our list is health and safety. A few items on that topic that you need to know:

We are REQUIRING that all camper meds arrive via CampRx. We cannot accept meds at the airport or at the JCC. With very few hitches, CampRx made our infirmary a much safer and more efficient area at camp. ACA recommends using this service, and federal law prohibits us re-dosing meds (handing a camper a pill from a bottle). Our nurses and doctors unanimously appreciated the organization CampRx afforded us in 2008 and 2009. I am including in this letter a brochure that will explain the service and how you can organize it.

We will need a medical form for each registered camper, signed by a physician. If your child has asthma, we also require an asthma action plan to be filled out and signed by the physician. The physical must have been completed after 6/1/2008. **WE WILL NOT ACCEPT ANY CAMPER WITHOUT A PROPERLY COMPLETED MEDICAL FORM.**

We appreciate so much the fact that you have chosen Sabra for your child's summer. We ask that you help us with the above in order for that experience to be a healthy and safe one!!

Terri Grossman
Director, Camp Sabra
